

Mission Statement

The Association of Asthma Educators is the premier inter-professional organization striving for excellence to raise the competency of diverse individuals who educate patients and families living with asthma.

Values

- Integrity and ethics in governing and educating;
- Diversity in membership, leadership, and education;
- Collaboration and partnering to serve the members; and
- Communications among board of directors, members and staff.

BAECM vs. Prep Course

The Becoming an Asthma Educator and Care Manager (BAECM) is for those just entering into the asthma world wanting to learn the basics in care giving.

The Prep Course is designed to help prepare asthma educators to take the NAECB exam to become Certified, it was written and is taught by credentialed asthma educators (AE-C, Asthma Educator-Certified).

The Prep course content includes; pathophysiology, epidemiology, factors contributing to acute and chronic asthma, patient and family assessment, asthma management including pharmacological, behavioral and environmental interventions, development of an asthma action plan, program outcomes, referral and professional networking, and spirometry for the health care professional.

Become a Member

The primary purposes of the Association of Asthma Educators are to:

- Promote asthma education as an integral component of a comprehensive asthma program
- Raise the standard of care and quality of asthma education delivered to those with asthma
- Join other passionate asthma educators – like nurses, respiratory therapists, Pharmacists, Community health workers, physicians and others across the country
- You do not have to be nationally certified as an asthma educator (AE-C) to be a member. **Join today!**
